PROJECTS

Ballroom Beats
https://github.com/Asilo5/Ballroom-Beats-UI
- Mobile App that encourages users to learn the steps of a dance of choice following the beat of a song of choice.
- Successfully added working React Native Animations.
- Group project given 2 weeks to complete.
- Stack: React-Native, Jest, Golang, Gin, Gorm, PostgreSQL.

Plant-Shop
https://github.com/Asilo5/plant-shop
- Full-Stack app designed for users who want to plan out what plants to buy for their home along with price and care instructions.
- Challenge was building the API for the first time, and it works.
- Solo project given 1 week to complete.
- Stack: React, Redux, Node, Express, MongoDB.

PROFESSIONAL EXPERIENCE

Handoff | Denver, Co (Remote)
Junior Front-End Engineer Intern | June 2020 - Sep 2020
- Took initiative in learning React-Native and went on to successfully develop features for the company.
- Translated wireframes into interactive, dynamic code using React.
- Developed a variety of React Native components within the app, with many features currently being utilised in the live application.
- Handoff is an alcohol delivery app based in Denver Colorado.

Grüneo | Berlin, Germany (Remote)
Web Developer Intern | Nov 2019 - Jan 2020
- Created an entire Wordpress website from scratch in assistance with the founder and CEO.
- Developed optimal communication processes in different time zones.
- Advanced my knowledge on Wordpress.
- Grüneo is a small startup based in Berlin with a goal to inspire users to grow their own vegetables from the comfort of their own home with a kit built by Grüneo.
